

01 – Brainstorming & Ideation

ServiceNow Administrator Project

Project Title	Client Script & UI Policy in ServiceNow Incident Management
Technology Track	ServiceNow Administrator
Module	Incident Management

1. Project Idea

The project focuses on implementing Client Script and UI Policy in the ServiceNow Incident form. The idea is to provide dynamic behaviour to Incident form fields based on specific conditions.

2. Problem Identification

In an Incident form, users may need to manually manage different field values and field properties. This can result in unnecessary manual actions and may make the form less user-friendly.

3. Proposed Solution

The proposed solution is to use Client Script and UI Policy to control Incident form behaviour based on configured conditions.

- Client Script – provides client-side behaviour on the Incident form.
- UI Policy – dynamically controls field properties in the Incident form.

4. Project Objectives

- Implement Client Script in the Incident form.
- Implement UI Policy in the Incident form.
- Control form fields based on specific conditions.
- Provide dynamic field behaviour.
- Reduce unnecessary manual actions.
- Make the Incident form more user-friendly.

5. Key Components

Component	Purpose
Client Script	Provides client-side behaviour on the Incident form.
UI Policy	Dynamically controls field properties in the Incident form.

6. Basic Project Flow

1	User
2	Incident Form
3	Select / Change Field Value

4	Configured Condition
5	Client Script / UI Policy
6	Dynamic Field Behaviour
7	Updated Incident Form

7. Team Members

Role	Name
Team Leader	M Manisha
Member	M Monisha
Member	E Pattu Devi
Member	S Selva Abi
Member	M Sree Varshini

8. Expected Outcome

The expected outcome is a dynamic and user-friendly Incident form where field behaviour is controlled according to the configured conditions.

9. Conclusion

The brainstorming phase identifies the need for dynamic Incident form behaviour and proposes the use of ServiceNow Client Script and UI Policy as the main components of the solution.
